- Live Landing Page

SUVEN CUNSULTANTS AND TECHNOLOGY PVT. LTD. | Web developer trainee
July 2022 | Remote
- Here I learn HTML,CSS,Javascript and Bootstrap.
- By using this technologies I develope a Course Website which is called TutorPoint which contain course,coding examples,e-books section.
- I Use HTML,CSS and Bootstrap to develop this site.
- Internship certificate
- Live Website

PROJECTS

MARVEL MOVIES AND SERIES WEBSITE | Link

- I develop this website because it is hard to find the chronology of marvel movies and series because of this people watch movies and series in wrong order and then they did not understand movies properly.
- I use HTML CSS,Javascript and Bootstrap to bulid this.
- I deploy it on Netlify.
- I place all the movies and series in correct order and arrange them phase wise that viewer can easily understand the order of the movies and series.

PORTFOLIO WEBSITE | Link

- I develop this portfolio website to showcase my Projects,Certifications,and Achievements.
- I use HTML CSS,Javascript and Bootstrap to bulid this.
- I deploy it on Netlify.
